To the gorgeous brunette (M) in Psy & Bio:
I don't mind being lonely,
What I do mind is not being loved.
Maybe you're feeling the same way too
You're ready to hold someone.

Something about you tells me
We're coming from the very same place
It's only a notion I have;
I see it written over your face.

You've got something about you
That I want around me
Something I've been searching
My whole life through
So now it's up to you
Tell me what you're gonna do.

Everytime I see you
It's the same thing all over again
You're doing something to me, it's true
And I don't want this feeling to end.

I really want to know you,
I really want to show you the way I feel,
So now it's up to you,
Tell me what you're gonna do.

Racial Equality Week

Alright, let's face it. Isn't there something quite unique about this campus? It's something quite immediate, and yet we rarely address it unless it's a problem. Often we try not to talk about it too loud, so we don't offend anyone.

Well, this unique feature I'm speaking of at U of T are the students. We're not unique because we're particularly intelligent, athletic or loudly spirited. Actually, the compelling feature that exists here at Scarborough Campus is that no one is a majority.

In other words, this campus is a veritable cornucopia of diversity, with large ethnic, racial and cultural combinations from just about every place on this earth!

The fact that we are, as the cliche states: "A multi-cultural society" is not really what Racial Equality Week is going to be about. To the average person, multi-culturalism is no big discovery, and one ride on the TTC will testify to our "multi-culturalism". How many years has it been since a subway car was filled with only white Canadian passengers?

Racial Equality Week has different goals than simply declaring our diversity. It strives to go beyond talking about racial and cultural problems, yet at the same time directly addresses some of the issues concerning the university, the city, the country and the world.

One goal I think, should be stated before even attempting to preview Racial Equality Week: we "want to celebrate our diversity" just as a gardener rejoices in having a variety of flowers.

Other intended goals include "getting out" some student concern, for example, where are the Black and Chinese professors in a school where Black and Chinese students make up a large minority?

Isn't it strange that we can look out over the back porch at the splendid horizon, and wonder what it was like when this land belonged to another people?

What do these "other people" have to say about racial equality? Did we ever **really** listen?

Finally, I think an important point should be made. Racial Equality Week, has not been the effort of one individual's (or institutes') expression of vain or pious hope, but is instead a consultative effort amongst **all** the cultural clubs, including **all** religious groups.

Scarb Students Unseen & Unheard

by Vangie Nitsopoulos

The struggle to fill 45 voting positions on Scarborough College Council (SCC) began last Monday as nominations opened for the upcoming 1988/89 academic year.

In the past, students have been nonexistent in the decision making process at Scarborough Campus due to inadequate student representation in SCC.

Out of the 46 voting positions that exist, 45 are available next year to full-time and part-time students in all disciplines.

There are 33 student vacancies on this year's council.

"In the last several years, it's (student involvement in College Council) really fallen off," stated Linda Pearson, Secretary of SCC, and who helps co-ordinate SCC nominations and elections.

Pearson says the trouble is that, students don't have a central student organization that they can contact to inform them about the SCC.

"Some students don't even know the difference between College Council and Students' Council (Scarborough College Students' Council, SCSC)," she explained.

SCC is a powerful Council that makes most major decisions at Scarborough ranging from academics (program additions and deletions) to general policy (shuttle bus) to acceptance or rejections of appeals on petitions.

Its voting members include, among others, members of the student population, faculty, administration, tutors, librarians and alumni.

There are two committees within SCC which are the General Policy Committee and the Academic Affairs Committee. Each report back to SCC which ultimately makes the final decision.

Also, in each committee four full-time student positions and one part-time student position technically exist. This year, there are 3 vacancies in Academics and 4 vacancies in General Policy.

Professor Andrew Stawinoga, Chairman of the General Policy Committee argued that although student nominations are needed to fill seats, it is the students who will actually attend the meetings, ask questions and come out to vote who are needed more.

"It's not just getting students interested, but getting interested students involved that is more important," he said.

Pearson agreed stating that even some students who are presently on the Council do not attend the meetings regularly. "There have been a few who have been enthusiastic, but not all have been out to any one meeting so far."

Pearson stressed the fact that if all student positions were filled and they came to meetings, "they could carry the vote".

Student College Council member Kim Clarke is also concerned about the lack of student representation on SCC. "The faculty has so much of the vote compared to students," exclaimed Clarke, "therefore, students' needs are hardly being met."

As an example Clarke cited the motion about the establishment of an anti-calender that recently failed in council. "It lost by one vote and if students were there it would have passed no problem."

Stawinoga also enforced the opinion of the need for students on council. He argued that it would not only be beneficial to students but it would be greatly beneficial to council as a whole, "It's difficult for students to get something changed that they're interested in if they're not there" he stated.

Nominations for SCC close this Friday, February 12th at 4 p.m.

Pearson seems to sum up the hopes of the rest of Council when she says, "I would love to see the year that we could fill every student constituency."

Campus Cops Need ...New Contract...

by Allan Wong

Low wages, high staff turnover, and staff shortages are grievances expressed by the Scarborough Campus Police, who have been working without a contract for over a month.

The average wage of a Scarborough Campus/University of Toronto constable is $26,534. This represents a pay scale which is ranked sixth out of eight Ontario universities, according to a survey conducted by the United Plant Guard Worker's Union.

Special Constable Peter MacMartin compared the salary of a Campus Police Constable to the $40,000 wage of a Metro Police Constable. "Years ago the salary gap... was very small. This is not the case today".

However, Robyn Bryan, Manager of Physical Plant Services, said that there could not be a strict comparison between the two. "In addition to the Campus Police, we (at Scarborough Campus) have the Metro Police. I feel that the policeman's position requires a more low-profile individual".

MacMartin explained that the university police are paid out of Simcoe Hall's annual budget. The police are subject to the same budgetary cutbacks that have caused major shortages in other university staff, such as teaching assistants.

Because of the relatively low wages, the campus police are forced to work short shift changes on a regular basis. "Short shift changes" means that officers work seven days, have two days off, then work a week of straight nights.

"(This) has definitely affected the ability of the police to perform our duties effectively" said MacMartin.

Bryan explained that the problem of staff shortages is being rectified. "A previously vacant full-time police position was recently filled, and further measures are being considered, particularly in the area of traffic control. One of our parking attendants will become a Parking Tag Attendant which will enable him/her to give tickets to violators".

The Campus Police are currently operating under the terms of their old contract which expired in December 1987. The staff will continue abiding by that contract until a new agreement is made effective retroactively.

Both Bryan and MacMartin felt that an equitable deal would be reached in the near future.

"We have always had very good relations with the University Police. I feel that the negotiations are preceeding well" said Bryan.

The University of Toronto Police and the downtown administration are in the process of negotiationing the U of T Police's demands for higher wages and three twelve-hour shifts per week. The next bargaining meeting is scheduled for February 25th and 26th.

Students Put Apathetic Foot Forward

Scarborough students are blindly handing over the reigns of power to Scarborough's Faculty and Administration.

Scarborough College Council is probably the most important and influential decision making force that presently exists at Scarborough Campus.

Decisions are constantly being made that affect Scarborough student life on and off campus. Decisions about child care facilities, valley renovations, new residents plans, renewal, pub management, changes in degree requirements and academic programs represent just a fraction of the all-encompassing range of topics that College Council discusses.

These decisions, which are made by a collective group of students, faculty, administration and others, greatly affect the lives of future, as well as present students at Scarborough.

Interested?

I doubt it.

5,000 Scarborough students were not interested enough to fill a measly 46 student voting positions on Scarborough College Council. 5,000 students are not interested enough to try to help contribute in major academic decision making processes at Scarborough.

Why?

It is not because all students just don't care (although some, admittedly, do not). It is just because most students are too willing to bitch about issues, and not do anything about it. It is so easy to pass the political buck (no matter how slimy it can be), but how many students are imitating this action?

How many students are too afraid, too busy, too confused or too lazy to challenge the present system, and make their voices heard? Obviously, there are about 5,000 of them who are.

Last Monday, February 1st, nominations were opened to fill 45 voting positions (one student's term expires in 1989) that, according to Linda Pearson, Secretary to College Council, have never entirely been filled in her 11 years at Scarborough.

Last year only 13 positions were filled. 33 remained vacant.

The result is a gaping black hole in Council filled with the echoes of student votes that "should have been". While faculty and administration argue about what is "best" for students, the rest of the student population remain ignorant. Not intentionally ignorant perhaps, but ignorant nonetheless.

The present sight in Council is pathetic. A few intimidated students carry the weight of the academic futures of thousands of Scarborough students. This scenerio can easily change.

A university should not only provide the knowledge and skills for a future professional life, but it should teach students to take more responsibility and control over their own well-being.

Joining and participating in College Council means gaining more knowledge, skills and responsibility for your own well-being. There is only one person who can teach you to be more responsible and in charge of your own life - and that is you.

Faculty and administration's monopoly over College Council decision making is like having a mother still spoon feed her 45 year old child. If all student positions had been filled this past year, students could now be organizating a Council-backed anti-calendar.

If student positions had been filled, perhaps the shuttle bus would be scheduled to run normal routes back and forth from the St. George Campus.

45 out of 5,000. I'd say the odds of filling those positions can be pretty good. Nominations for College Council are open until this Friday. It is time to stand up and make your opinions heard.

A Beggar's Valentine

by Peter Toiviainen

Valentine's Day is fast approaching. Another commercially-inspired day to spend money on chocolate, flowers, dining out--all the trappings of our society at its best. Meanwhile, it is a sad aspect to our society that not all of its members can cope with the changing times.

We sit here, in a basically "elitist" institution, trying to gain our coveted degree, so that we can be accepted into our materialist society. Most of us accept this as a consequence of our liberal democratic political system. We strive to "better ourselves", and provide more for our children than we grew up with.

On the fringes of this ideal, are the homeless, the runaways and the alcoholics who have nowhere else to turn.

Why do I mention this? Well, to tell you the truth, recently I was "panhandled" eleven times during a walk down Yonge Street from Bloor Street to Queen Street. Within the space of four subway stops, eleven members of our society swallowed their pride and asked for a handout.

There was nothing average or common about these people. Eight were men, and the other three were women. Their ages varied from about 17 to 60 years. Their requests were varied, and revealed something about their problem.

"Could you help me out? My clothes are in a locker, and I need to get them washed."

"A quarter for a coffee?"

"Some of us ain't doing so good, could you help me out?"

"Nickel... dime... even a penny will do... nickel... dime..."

I was caught in a dilemma of conscience. I had some loose change that I could give it out, but would it help or hinder? The man of about 35, asking for money for coffee was probably going to spend it on wine or bitters. The 17-year old probably did have his clothes in a locker, and needed to get them cleaned.

I must admit that after about the fifth request, I could sense myself getting annoyed and angry at being panhandled. On the other hand, it was a cold snowy evening and I knew I would feel guilty if someone suffered while I had a chance to help.

In the end, I went back to the outside of Eaton Centre where three of these people approached me. I gave them all a small handout. Funny enough, I didn't feel any better.

Israel Seeks Peace With Palestinians

by Anna Urowitz

Recent media coverage (in the "outside world", and now on campus as well) of the situation in the Gaza Strip and West Bank territories has been extensive, but not necessarily exhaustive. The common portrayal of the occurences there, as shown in the Canadian media, is of Israeli soldiers beating youths. The unfortunate fact that the media often leaves out of this image is that Israeli soldiers are youths themselves. These eighteen-year old Israeli "men" do not volunteer to serve in the army. They are drafted into an army that is forced to exist because the country it defends is surrounded by enemies.

There is an important amount of world history that took place on that tiny strip of land in the Middle East that has been making headline news as of late. Much of that history took place in our century, and it is this section of history that is vital in understanding the current political situation in the territories.

In 1947, the United Nations offered the "Partition Plan" to the Jews and the Palestinian Arabs. This plan was for the establishment of a Jewish state and a Palestinian state that would exist side by side. The Palestinians rejected this plan. The Jews declared for themselves a state. Then, the Palestinians and their Arab brothers declared war on the new State of Israel.

Twenty years late, as a result of the 1967 Six Day War between Israel and her Arab enemies, the State of Israel gained new territory including the West Bank and Gaza. Since this war was a defensive one, Israel has no obligation to anyone to participate in the formation of a Palestinian State on these lands. Before 1967, when the gaza and West Bank were in Arab hands, the formation of a Palestinian State there was never considered.

Historically then, it does not seem as if the Israelis must necessarily allow the Palestinians to establish a state in the Territories. It is evident though that the current situations in Gaza and the West Bank are problematic. The problems involved are those of national aspirations and of living conditions. The latter problem may be easier with which to deal because the reports that we receive in the media are often more extreme than the situation actually is. For instance, the newspapers have recently reported that

"Just Out Of Curiosity, How Is It We Never Got A Homeland During All The Years Our Arab Brothers Had The West Bank?"

there is a shortage of food in Gaza. Michel Amiguet though, Middle East Director of the International Red Cross, stated on Jan 22, 1988: "I have not any report that would conclude there is any lack of food so far".

Another type of media coverage involves showing the same injured person or riot over and over again, so that the viewer will be led to believe that the situation is more extreme than it actually is. As well, statistics prove that the standard of living in all areas, including health care, employment and education, have improved in the territories since 1967 due to the Israeli "occupiers".

The problems involving national aspirations are more difficult to try to solve. The Jewish people certainly know what it feels like to be without a homeland. They were without one from the year 73 until 1948. It is because they love their homeland so dearly that many Israelis cannot consider allowing it to be more vulnerable to her Arab neighbours who remain her enemies.

The Palestinians are insisting through their present rioting, that they want a national state in the Territories, regardless of the historical facts cited above. Realistically, any form of Israeli pull-out would have to include negotiations with the Palestinian leaders. These self-declared leaders are the Palestinian Liberation Organization (PLO). How can Israel be expected to meet with this organization when the PLO Covenant states that "Armed struggle is the only way to liberate Palestine (Article 9), and defines Palestine as a state "with its bounderies that existed at the time of British Mandate" (Article 2)? How can Israel negotiate peacefully with the PLO when the PLO believes that the only way they can obtain Palestine is through war, and that the territory for which they are willing to fight includes Gaza, the West Bank, as well as the states of Israel and Jordan?!

The present situation of rioting and strikes and violence in Gaza and the West Bank does not offer any easy answers to the difficult questions it poses. For now Israel is trying to bring some degree of peacefulness to the problematic area, through different measures. These measures are ones of self defense: self defense for each individual soldier, and self defence for the state herself. Hopefully, when everything is more settled in the territories, Israel will be able to continue to search for solutions to the problems of the Palestinians in the West Bank and Gaza.

At least one such solution has been offered publicly, with the Camp David Accords ten years ago. This offer, for the Palestinians to establish an autonomous administrative council in the Territories for a transitional period of five years, still stands. Israel will continue to look for answers to the 'Palestinian Problem'. Afterall, the Israelis also want peace in the Middle East. They too have seen enough of their youths injured and killed, to last an eternity.

Sic(k) Letter

Letter to the Editor:

I am writing this letter in rebuttle(sic) to the letter by Craig Bridgeman entitled "Non-Smoker Fuming".

I understand that **The Underground** is not a major critically acclaimed newspaper, but it does I believe provide a useful, enlightened news service to Scarborough College and its students. Though after reading the forementioned(sic) letter I was most dissappointment(sic).

For how could such a(sic) ignorant, arrogant and nieve(sic) letter ever be published. Not only was the opinion expressed poorly, but the nutrocious (sic), juvenile writings of Mr. Bridgeman was nothing short of a joke.

What Mr. Bridgeman was trying so desprately(sic) to do was to vocal(sic) his annoyance of smokers who at times disregard the smoking policy at this College. This I can sympathize with, even though I, myself, am a smoker.

Before one can make such a rash, blatant statement as did Mr. Bridgeman, one must look at the various other points. One should take into account the extremly(sic) poor ventilation of

this College. One must also consider the rather limited smoker's policy, also that smokers are people to(sic), and so, therefore, should have rights. You don't see smokers complain when non-smokers sit in their somewhat small designated areas.

The bottom line here is perhaps the smokers are not the only ones at fault. As for actually publishing such a one-sided, very immature forementioned letter, I leave that in the hands of yourself as editor and the standard of the paper to do so(sic).

Sincerly(sic), Rob Gearing

Ed's note: We are very disappointment(sic) with the nutrocious(sic) person on **The Underground** staff who allowed that forementioned(sic) letter to be published. We apologize sincerly(sic). Don't worry, we have vocal(sic) our annoyance with that person, and he has been fried(sic).

Rambo For VP?

Letter to the Editor:

What kind of "Rambo" do we have as a Vice-President of this College? This violent, animalistic bimbo appears to be an absolute idiot.

David Ossip shows no regard and no patience for other fellow colleagues. A person with such high profile should not display rude, intolerant behaviour in public (ie. the student photocopying area).

For the next voting election, I urge the students of Scarborough College to choose someone with more brains in their head, and not a male chauvinistic pig.

Jacket Racket

Letter to the Editor:

As you are well aware, the U of T Bookstore has cancelled its spring jacket day. Why? Because of its poor handling of the first one back in October.

Jackets ordered in October were promised a delivery period of eight to ten weeks. In reality, the jackets **still** have not arrived, and are not expected to arrive until the second or third week in February.

For the jackets to take **15 weeks** to arrive is both ridiculous and intolerable, especially since there are outside manufacturers who can produce the same quality jacket for the same price within 2 to 3 weeks.

In defense, the Bookstore has blamed the deal on the company, which in turn blamed the production delay on an unexpected increase in student orders this year. I recognize that the company is to blame for this production delay; however, it was clearly the responsibility of the Bookstore to inform students of the delay, and to take action on it before the situation became

4 administrative groups affecting Scarborough Campus

Governing Council (GC)

GC addresses issues which face the University of Toronto community as a whole. They establish academic and incidental fees, approve campus planning and capital projects, appoint senior administrative officers, and make other central decisions. GC is composed of fifty members including the President, the Chancellor, 16 government appointees, 12 teaching staff, 8 alumni, 8 students, 2 administrative staff and 2 presidential appointees. GC funding comes primarily from tuition fees, government grants, and private donations.

Students' Administrative Council (SAC)

SAC is a student government body which strives to address the concerns of the entire full-time undergraduate student population at the University of Toronto. A President (Ellen Ladowski) and Vice-President (Craig Pinnock) administer three commissions and a Board of Directors. The 60-member board represents the various student constituencies found on all three U of T campuses. The proportional representation of the various constituencies is based on their size. Scarborough Campus has 8 directors which sit on this board; they articulate the interests of the 3500 full-time, Scarborough Campus students.

Each Scarborough student pays $32.04 to SAC in their incidental fees, which brings Scarborough's total SAC contribution to about $100,000. In return, SAC sponsors events, disseminates information, and lobby important issues, both here and downtown.

Scarborough College Council (SCC)

SCC in reviewing the concerns of the entire Scarborough Campus community, aims to address issues which affect all students, faculty and staff at Scarborough Campus. It is composed of three committees administered by the Principal, Associate Dean and Director of Administration. The approximately 200 faculty and staff members are eligible to vote in SCC meetings. 46 students from various academic divisions sit on the council. SCC is essentially an autonomous governing body which receives the bulk of its' funds in the form of a lump sum from Simcoe Hall, downtown's administration. Academic regulations, financial allocations, and staff policies are determined by this governing body.

Scarborough College Students' Council (SCSC)

SCSC aims to address the needs of all students at Scarborough Campus by gathering information and concerns from the students. The President (Hanif Sarangi) and the Vice-Presidents of Administration (Helen Christodoulou) and Finance (David Ossip) oversee 5 commissions and 10 year reps. There are also year reps from the Student Village Council (SVC), Scarborough Campus Athletic Association (SCAA) and the Association of Part-time Students (APUS) which sit on students' council. Most of SCSC'S income is received from students' incidental fees; full-time students pay $25, while part-time students pay $2.25. Certain SCSC members sit on the Scarborough College Council, and provide services such as The Pub, dances, concerts and the SCSC Handbook.

prolonged.

Had I been informed earlier of this incredible and unreasonable delay (which the Bookstore had full knowledge of), I would have withdrawn my deposit money way back in November, instead of waiting until mid-January to do so. What's interesting is that despite having to reorder my jacket from another company, I received it in two weeks, an entire 13 weeks less than through the more "convenient" Bookstore route.

In frustration, I have sent a letter registering a formal complaint to the Manager of the Bookstore regarding the inept handling of the jacket contract this year, and suggesting that the Bookstore carefully examine the companies bidding for next year's contract before choosing one.

Moreover, I suggest that any student considering buying a U of T jacket next year should keep this situation in mind before deciding to go through the Bookstore to get it.

Heavy Debate on Free Trade

by Leslie Sparks
and David Berry

Scenerios of possible financial and cultural bankruptcy occuring under the conditions of free trade were discussed in a lively forum held last Wednesday.

"The gains from trade and specialization will improve (life for) the residents of Canada only under the assumption that the jobs created by these new opportunities stay in Canada", said Gordon Sparks, economics professor from Queen's University.

Sparks explained that, under a free trade agreement, many Canadian companies will go bankrupt because they would be unable to compete with the larger American companies. This could force both countries to specialize in the production of certain goods.

Robert Boaz, an economist from Midland-Doherty, agreed with Sparks' line of thinking, adding, "The negative (side effect) is the fact that jobs will be lost in many sectors of the economy".

Canada's inability to maintain and develop its culture under a free trade agreement was another major concern expressed by the speakers. Article 2005 of the Free Trade Agreement outlines four provisions which would affect Canada's cultural protectionism. For example, tariffs on products essential to cultural industries, such as cassettes, film, and musical instruments, would be eliminated.

According to Hugh MacKenzie, economic researcher from the United Steelworkers of America, the agreement's provisions would hurt Canada culturally.

"The assertion is made that free trade will have no affect on Canada's attempts to foster or promote the development of the Canadian (cultural) industry. That is not true. There are specific provisions in the deal that will make it extremely difficult to politically expand these activities in the cultural area" he said.

The use of regional subsidies to promote development in the poorer areas of Canada was another issue that was hotly debated. MacKenzie explained that before free trade, companies were encouraged to set up their operations in certain areas of the country in order to promote growth.

"The federal government successfully used regional development policies to encourage companies like Michelin to locate in Nova Scotia. Federal officials have stated that with a free trade deal, arrangements such as Michelin could not be possible. We would have to find another way to deal with regional development" he said.

Derek Chisholm from the Canadian Bankers' Association felt that past regional development strategies failed to improve the situation. "I think that the dismal failure of regional policies reveal to me unambiguously that trade is a potential solution that is worth trying".

A key point that was stressed throughout the lecture was that it is difficult to predict the exact effects that free trade will have on the financial and cultural health of Canada.

"One thing that we have to understand (is that), we all came in here hoping to find the impact (that free trade will have) on economics and sovereignty. We are going to leave, not knowing this, for a number of reasons. The number of studies done on the impact of free trade, and the employment benefits, were done by organizations that may have a bias. It is very easy to run through an econometric model and add our own assumptions and end up with 200,000 jobs being created. I could also take the same model and come up with a job loss" Boaz concluded.

Last Wednesday's free trade discussion was sponsored by the Economic Students' Association at Scarborough Campus.

One Helluva SAC Race

by Cathy Majtenyi

The heat is on after four presidential candidates and their running mates officially announced their intentions to run for Top Gun positions in the U of T, Student Administrative Council(SAC) elections.

Vying for the positions of SAC President and Vice-President are Esther Carenza from St. Mike's College and Chris Dunsmuir from the Faculty of Engineering; Bill Gardner, also from St. Mike's and Scarborough's Helen Christodoulou; Dominic Leblanc from Trinity College and Erindale's Brian Lacy; and James Ryan of New College with Robert Drascic from Engineering.

Nominations for President and Vice-President and positions on the Board of Directors closed last Friday. The Presidential hopefuls will begin their campaigns on February 23rd and end one day before the election on March 9th and 10th.

Scarborough Campus students will have the opportunity to scrutinize the politicians at a forum held on February 24th from 12:00-2:00 in the Meeting Place.

Throughout the campaign period, other forums will be held at Erindale, Hart House, the Medical Sciences building and Sidney Smith building.

Participation in this year's election is greater than it has been for the past three years. Last year, only two tickets ran and the year before, Iggy Pitt and Titch Dharamsi were acclaimed.

As well, Christodoulou is the fourth consecutive Scarborough student to run for the position of Vice-President. Craig Pinneck captured the title last year, Dharamsi the year before, and Phil Boland was SAC Vice-President for 1984/85.

SAC is a student government body which addresses the needs of all U of T full-time undergraduate students. Through SAC, students are represented at all levels of government including federal, provincial, municipal as well as within the U of T, itself. SAC also helps to coordinate activities such as the Daily Food Bank, speakers, free films, info kiosks, and Special Funding Projects.

Hotter Race For SAC Scarb

by Rosemarie Kurti

An unprecedented number of Scarborough students are vying for positions on the Students' Administrative Council (SAC) Board of Directors.

Sixteen candidates will compete for eight Scarborough Campus SAC Director positions. Scarborough SAC Directors represent the views and interests of this campus on the 60-member cross-campus SAC Board of Directors.

"That's a wonderful race. It's the most (number of candidates) we've ever had. They all seem to be good candidates" said Elaine Fanning, Scarborough SAC Liason Officer.

The students running for Scarborough SAC Directors are: Tim Sullivan; Jonathon Silver; Sarah Saso; John Abdo; Shahid Abbasi; Jay Bondar; Kim Clarke; Tracy Finkelstein; Paul Hirst; Peter Naglik; Ashi Patel; Darryl McDowell; Gordon Onley; Art Trotman; Tony VanHeusden; and Georgette Zinanty.

February 22nd will mark the beginning of the campaign period. The candidates will be introduced at the SAC forum to be held on February 24th at noon in the Meeting Place. Campaigning will end one day before the elections on March 9th and 10th.

SAC is a student government body which represents all full-time undergraduate students at the University of Toronto. The current Scarborough SAC Directors are: Jeff Scott, Brian Burchell, Ari Huber, Darryl McDowell, Peter Naglik, and Sarah Saso.

If I was magical I could cast spells, grant wishes, make dreams come true, or even make one fall in love. This in itself would be magical. Ah, what a work of art I would create. Not only a prince, but a king. A pure vision which I could behold.

Medium height, brown hair, piercing eyes and a smile of gold. Not only a true goodness, but more. If I was magical I would create this vision and keep him just for me.

Dear Mark,
You are a decent friend, however, I can imagine things a whole lot better. I am being forward, I admit, but I have to reveal my true passions before I have a fit. When I look into your eyes, I feel a wanting heat between my thighs.
When you hold me and we dance, I pray you will try to get into my pants. The way you smile, walk, swivel and sway, makes me hornier each and every day. So if you will be my man, I will try and please you as best as I can. For I know that I am hot for you and you are not hot for me, but on this Valentine's Day let my probing tongue run free.

ENTERTAINMENT

A Strong Case For Abortion

by Bruce MacPherson

John Hughes had already become the Henry Ford of teen flicks when he counted his money and decided to become an artist.

He quickly realized that, like all great artists (Neil Simon, Woody Allen, Lee Iacocca), he needed an autobiography. So he wrote, directed, produced, locked-stocked-and-barrelled **She's Having a Baby**, the latest in a long, dreary list from Hughes Corp.

Like Simon and Allen, most of Hughes' movies are based on his real-life experiences in the puke-perfect suburbs of Chicago. Unfortunately for his audiences, most of his movies before last years' **Planes, Trains and Automobiles** were based on his rowdy-but-polite teen years.

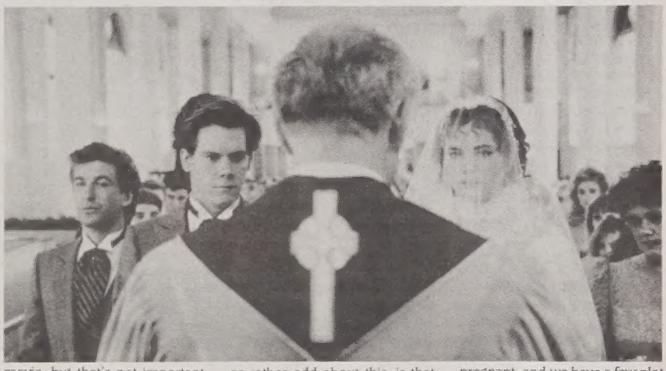
His productivity would have made the late Mr. Ford envious. He spewed out a movie every five minutes, and they were all identical; drivelling little high-school cynics whose parents refused to acknowledge their existence once they were able to walk, decide to take drastic actions to assert their individuality (like using 10 rolls of tape to close up some Harvey Bookbinder's rearend in the school locker room).

The Breakfast Club, **Pretty in Pink**, **Some Kind of Wonderful**, **Sixteen Candles** etc, etc, all share a common moral: parents are stupid!... but they can be alright if you're really desperate for a place to end the damn movie.

She's Having a Baby is an alarming departure from this formula; alarming in the sense that it appears our prolific pander-monger has run the gamut in teen films, and is ready to suck out whatever sense was left in early childhood.

Jake and Kristy Briggs (Kevin Bacon and Elizabeth McGovern) are newlyweds. Jake is restless; after completing his college degree in Romance Languages and Elizabethan Poetry. He's not sure if he's ready to settle down with his high-school sweetheart, but he's already committed.

Kristy is more than ready to support her man in whatever way she can. There's a vague reference to Kristy's education or potential career or some such thing at the beginning of the movie, but that's not important. She's married now, and it's her man that counts.



Jake takes a stab at graduate school, but gives up and immediately gets a job at a major advertising firm (there's hope for us shitless artsies yet!). Then he and Kristy go about acquiring all the embellishments of life in a modern city: A home in the suburbs, colonial furnishings, a BMW etc.

The only thing that strikes one as rather odd about this, is that whereas it would take the average young professional couple, working on a combined income of about $50,000, at least 10 years to get it all. It only takes Jake a year; and Kristy stays home to dust and dream about motherhood.

The crux of the whole muddle occurs when Kristy sets about making her dreams come true. Without the consent of her much-better half, she stops taking the pill. When nothing happens, she takes a fertility test. When that comes back positive she tells Jake what she's up to, and asks him to take a fertility test.

Of course he interprets this as an assault on his manhood, and agrees to try to make the baby in order to prove himself. Jake and Kristy start taking temperatures and stuff in order to figure out when to copulate. She finally gets pregnant, and we have a few plot twists and the whole thing winds down to its blissful conclusion.

Along the way, there are all kinds of typical newlywed problems; parents, neighbours, work (for Jake), affairs (for Jake), but never money. There's a lot of bouncing back and forth between fantasy and reality, comedy and dreams, music video and movie, but it still adds up to meaningless drivel.

Under the circumstances, the performances aren't as awful as one might expect, although Elizabeth McGovern looks as though someone set her face in cement. Kevin Bacon isn't bad even though he doesn't dance and the supporting cast does its job.

Through it all the moral remains the same - parents are stupid! I wonder if Hughes' mother is a fan of his.

A Hearty Chuckle

by Matthew Diamond

The annual U of T Variety Show took place last week in the Hart House Theatre on Feb. 4, 5 and 6. The show which was presented as a telethon for fictional TV station, channel 10, introduced talented singers, musicians and comedians from around the university.

The acts were for the most part surprisingly good, though a few of them fell flat for a variety of reasons. In particular several of the comedy skits died due to poor timing, ie. too slow a delivery on the punch line. Budding comedians should remember that in comedy, timing is everything.

Two of the comedy sketches that did work, however, were the "Silverfish" routine, in which an overworked student (David Diosy) has a giant cockroach (Gord Oxley) write a term paper for him, and the "Trinity Sketch", in which the residents of Trinity College were unmercifully lampooned.

Probably the best performance of the evening was "The Double Duo" (Jen Schaffer and Ken Smiley). They performed a flawless series of vocals and accoustic guitar works, that would have put most of the musicians we get at the Pub to shame.

One of the acts that didn't work was the musical number from "Grease". The performers apparently had a lot of trouble coping with the mike cords and remembering the words to the songs, resulting in one of those embarrassing fiascos all entertainers dread.

Since it is impossible to review every one of the acts in the space available, it should be said that all of the performers deserve recognition, even if their acts didn't come off as planned. The fact that they had the guts to get up on the stage and perform is commendable in itself.

However, I was surprised to note during the show just how few performers there really were. There were only about twenty or so individuals overall, with a half-dozen of them being in several acts. Were the organizers short of volunteer entertainers and acts?

Perhaps in the future they could organize the event to be more of an inter-campus event, with acts from Scarborough, Erindale and the various downtown Colleges competing against each other. This would serve to not only boost the number as well as the variety of acts, but also to raise the number of spectators in attendance.

The event averaged an attendance of roughly 45 people over the three nights.

The Double Duo was one act that gave a stellar performance at the SAC Blue & White Variety night

Nemetz Babbles On & On

by Peter MacMartin

The drab greyness of the Meeting Place was lightened up on Thursday, Feb. 4, by the appearance of Howard Nemetz, a Toronto comedian.

Nemetz, performed an hour long show to a crowd of about 100 people. He held audience attention well.

Nemetz, "mindlessly babbled" as he called it, for about ten minutes until the audience picked up in attendance. He then proceeded to give quite a customized show aimed at the average university student and his/her general lifestyle.

He found the subjects of sex, school, love, and his family, quite easy to "babble" about, and did so with vigour. He alluded to many anti-school ideas; something many comedians tend to do. However one could sense Nemetz' detachment from the university experience, despite his own university education.

He also found it amusing to victimize unsuspecting members of the audience to supplement his show.

Nemetz was born and raised in Montreal, and was educated at McGill University where he initially majored in Biology and Genetics.

"I was majoring in Bio, but when my marks came out, I no longer was."

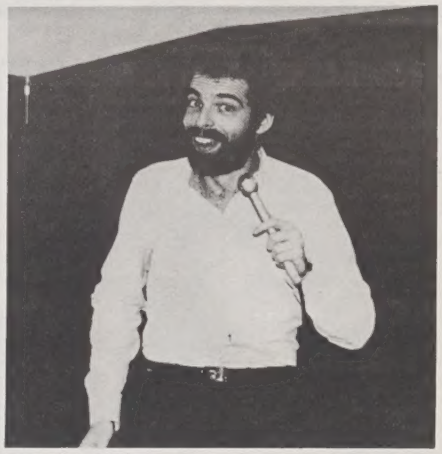

Photo by Peter Tomiainen

Well at least someone enjoyed himself in the Meeting Place last Thursday

Consequently he took up communications and began stand-up at McGill for pubs and bars. After this, he performed at **"Stiches"** a Montreal club, nine years ago.

He has taken his act all across Canada with the exception of P.E.I. His current endeavours include writing skits for **"Switchback"**, the Sunday morning entertainment show. He is also collaborating with two other writers on a humour-comedy screenplay tentatively called **"Manic on the loose"**.

And he is writing a sit-com about a toy store and its owner, called **"Baffo"**. This work has been accepted by CBC, and may be put into production in the near future.

Drama Club ...Profiled...

by Christopher Forrest

After a slow start in the first term, the Drama department is preparing for three full length evening productions this term, and two student-written lunchtime shows.

To get things going, Medieval and early Renaissance drama specialist Kathy Pearl, is directing Francis Beaumont's **The Knight of the Burning Pestle**, which runs this week from Wednesday to Saturday. The curtain time is 8 p.m.

Written in 1607, and originally performed by a troupe of boy actors,**Pestle** features broad, bawdy humour, mocks London society and satirizes Elizabethan stage conventions. Beaumont gently prods the likes of Shakespeare and Kyd, and should easily give the audience a hearty belly laugh.

After Reading Week, third year student Judith Begley - who brought us **Butterflies are Free** last year - will direct Canadian Erika Ritter's contemporary adult comedy **Automatic Pilot**, which will run from Feb 24 to 27 at 8 p.m.

Wrapping up the evening productions, the head of the department Prof Michal Q. Schonberg, will present a contemporary treatment of Shakespeare's comedy **A Midsummer Night's Dream** from March 23 to 26 at 8 p.m.

The lunchtime shows run at noon, and are selected to enable the audience to take in a complete show within one 50-minute class period. **A Piano For Your Thoughts**, written by third year student Rene Holder, runs from March 1 to 3, and third year student Kevin Hobbs' as- yet untitled play will be premiered in early April.

For those of you who find the cost of theatre tickets rather prohibitive, your own college productions are **free**. This does not mean that they are taken lightly, by the students and faculty members involved.

In fact, a survey conducted last year by Arts Administration and Drama student Diane Quinn, indicated that the hard work was paying off; our past patrons were delighted and are returning for more.

To get a seat, just give us a call at 284-3204 or 3163, and look out for banners in the Meeting Place.

Dino Does Damage

by Bruce McDonald
Feb. 10, 1998–Toronto

NHL Vice-President Dave Brown today suspended Dino Ciccarelli Jr. for two entire periods as punishment for the Leafs' centre's third on-ice murder of the season.

"Mr. Ciccarelli has shown no respect for the rules and his actions were unquestionably intentional," said Brown. "We had no choice but to throw the book at him."

The suspension arises from an incident Thursday where Ciccarelli repeatedly swung his stick at Hamilton Ballards' captain Marcel Dionne, who was in search of his 1,500th goal.

NHL rules state clearly that a player must go to a neutral corner after five unanswered chops to the skull.

In September, Ciccarelli received a 5-minute major for using his skate blade to slice the jugular of New York Ranger defenceman Hulk Hogan, and three weeks ago, his garroting of Pittsburgh's Justine Blainey cost him a full ten minutes.

Ciccarelli, intending to appeal, called the suspension, "a bit harsh, considering that, at 6'2", 220 (pounds), I'm one of the smallest guys in the league. Dionne had deaked me twice in the game, and I had no other way to retaliate."

Leaf coach Jimmy "The Greek" Snyder stood up for his player, pointing out that the Buds were down by two goals at the time of the incident, but rallied for a 4-4 tie. The single-point put the Leafs into second place in the Ziegler Division, 19th in overall standings.

"Sometimes a team needs a good murder, or maiming or something as a pick-me-up," said Snyder, who recently replaced Tony McKegney as the Leaf coach. "Dionne's death was a let-down for the Ballards, and we took advantage of it."

Reacting immediately, League President Janet Jones-Gretzky-Eagleson demanded that the murder of an opposition player be punished by an additional 2-minute bench penalty for the guilty team.

"Therefore," she said defiantly, "if a team uses the philosophy of murder, they will have to play two men short."

The reaction in Ottawa was predictable, as Prime Minister Don Cherry once again blasted the NHL. "Dat's what ya get when ya let a buncha sweeties run da league," he said. "Back when I was in da AHL, a real league, we'da given Ciccarelli an award somethin'."

Erindale's goalie, pictured above, need not hide his head in shame: his team netted three to Scarborough "A" Chris O'Brien's lone goal in Interfac hockey action last Wednesday night. With only two regular season games left, the loss will make it difficult for Scarb to clinch a first place finish.

HURRICANES
Athlete of the Week

Leslie Lang, centre for the Scarborough Women's Ice Hockey banged home 4 goals in a recent game against Erindale to earn Hurricane's Athlete of the Week honours.

Lang has been a consistent goal-scorer for Scarborough, especially in pressure situations - the final of her four goals came with only 38 seconds remaining in the game.

A commerce major in her third year, Lang still finds time for hockey, academics and cheering on the Leafs, "even though they stink". Congratulations from **The Underground** and Hurricane's Roadhouse Restaurant.

Squashed

Scarborough's devasting one, two, three punch of Alan Hoes, Karl Rankis and Mark Assing in Interfac squash proved once again with their annihilation of St. Mike's that, "the saint's" don't always go marching on.

St. Mike's uncharacteristically fielded a very strong team. However, the superior skills and stamina of the Scarb players provided exciting victories to improve their record to 9-5 in keeping the team near the top of the standings.

Hoes, playing at the #1 position, led the way with a convincing 3-0 victory in the best of three matches.

For those interested, the matches for the next squash games will be on Tuesday night at 9 p.m. at the Athletic Centre (St. George Campus).

Ooops

Contrary to information published in last week's edition of **The Underground** (Vol. 7 #18), the women's ice hockey team did **not** lose their first of two games against Erindale. Leslie Lang's 4 goal performance for Scarborough led to a tie, not a loss. The sports editor accepts full responsibility for the misprint. Sorry.

A Weighty Matter

All women interested in showing support for an improved weight training facility at Scarborough Campus are urged to attend a meeting this Wednesday, Feb 10 at 11 a.m. Alternatives for the existing facilities will be explored, and suggestions are encouraged.

Tsk, tsk. Any way there is no better time than Now to tell "Madam X" how you feel. She's obviously warmed the cockles of your heart, hopefully she's stirred up the flames of a romantic devil! (Don't be so chicken!) Remember you've got to get started on those ten children. It might not be all bad... If not for love, she'll marry you for the money! Happy V-Day! and good luck!

Dear Albert (yes, the one who sits next to me in Microlab),
Well, perhaps I'll be nice this time, and I won't elaborate on your selfish, pig-headed, snobbish, chauvanistic attitude! I guess that's what makes you special.
Where's your liquid tar? I kinda miss "personalizing" your cup. Happy Valentine's Day. I hope it is as impeccably sterile as you can make it! (hee, hee)
